

Family Predictors of Underage Drinking

in Southeastern Connecticut

Tuesday, January 13th, 7pm

at Lymes' Youth Service Bureau
59 Lyme St, Old Lyme

This important workshop will review current research on family risk and protective factors in regard to their relationship with youth alcohol consumption.

- Learn how choices parents make can influence their child's decision to use alcohol.
- Discuss strategies for effective prevention within the family system.
- Factors including family management, attachment, attitudes, modeling, and involvement will be addressed
- Underage drinking in our region starts at a young age! It's never too early to use parenting tips you will learn in this workshop.

Presented by: Angela Duhaime, M.A.
Southeastern Regional Action Council

This workshop is free and open to the public
and appropriate for parents of all ages.
